

Geological boundary	
exposed.....	
Fault or shear zone	
exposed.....	
concealed.....	
Fold axial trace	
anticline; exposed, concealed.....	
syncline; exposed, concealed.....	
Small-scale fold axis, showing trend and plunge	
Z-vergence.....	
Bedding, showing strike and dip	
inclined.....	
horizontal.....	
overturned.....	
way-up not known, inclined.....	
Trend of bedding.....	
Igneous flow banding, showing strike and dip	
inclined.....	
Way-up indicator	
graded bedding.....	
cross-bedding.....	
Metamorphic foliation, showing strike and dip	
inclined.....	
Cleavage, showing strike and dip	
inclined.....	
Shear-sense indicator	
showing dip of foliation	
sinistral	
inclined.....	
reverse.....	
Slickenside, showing direction and plunge of striation.....	
Fracture, joint, or extension vein, showing strike and dip	
inclined.....	
Fracture pattern.....	
Trend line	
interpreted from aeromagnetic data.....	
Isotopic age determination site with identification number.....
