Geological boundary	
exposed	
concealed	
Fault or shear	
exposed	-
thrust, triangle on upthrown side	
concealed	
concealed, interpreted from aeromagnetic data	-??-
relative displacement	
Fold, showing axial trace and generalized plunge direction	
overturned syncline	\longrightarrow
Bedding, showing strike and dip	
inclined	50
vertical	+
strike and dip direction estimated from aerial photography	
trend of bedding	
Foliation, showing strike and dip	
inclined	<u>80</u>
vertical	+
Airphoto lineament	
structural or prominent trend, unspecified	
Aeromagnetic lineament
