

Geological boundary

observed.....	
interpreted.....	
interpreted from aeromagnetic data.....	

Fault, inferred; interpreted movement.....

Shear zone, locally concealed.....

Fold axis, showing plunge

major anticline.....	
major syncline.....	
minor.....	

Bedding

inclined.....	
vertical.....	
horizontal.....	

Igneous lamination

inclined.....	
vertical.....	

Way-up indicator

igneous layering.....	
pillow structures.....	
sedimentary.....	

Dominant metamorphic foliation

inclined.....	
vertical.....	

Strongly foliated rock.....

Mineral lineation

inclined.....	
horizontal.....	

Cleavage, widely spaced

inclined.....	
vertical.....	

Joint, fracture, extension vein

inclined.....	
vertical.....	

Air photo lineament

foliation trend in greenstone.....	
fracture patterns in granite.....	
foliation trend (section).....
