

## Geological boundary

accurate.....	
interpreted.....	
interpreted, partly based on aeromagnetic data.....	
interpreted, partly based on aeromagnetic data, position doubtful.....	

## Fault, inferred.....

### Shear zone, mostly concealed

major, interpreted, position doubtful.....	
minor.....	

## Fold, showing direction of plunge

syncline, inferred.....	
anticline, inferred.....	
minor fold, asymmetric.....	
minor fold, symmetric.....	

## Bedding, showing strike and dip

inclined.....	
vertical.....	
overturned.....	
trend (section only).....	

## Igneous layering

inclined.....	
---------------	--

## Dominant metamorphic foliation

inclined.....	
vertical.....	

## Strongly foliated rock.....

## Cleavage, widely spaced

inclined.....	
vertical.....	

## Way-up indicator

igneous layering or differentiation.....	
pillow lava.....	
sedimentary structure.....	

## Mineral lineation

horizontal.....	
plunging.....	

## Intersection lineation

horizontal.....	
plunging.....	

## Fracture or joint

inclined.....	
vertical.....	

## Air photo lineation

foliation trend in greenstone.....	
fracture patterns in granitoid rock.....	

## Mineral field boundary.....

## Mineral field district boundary.....

## Formed road.....

## Track.....

## Fence, generally with track.....

## Railway, with siding.....

## Homestead.....

## Locality.....

## Building.....

## Horizontal control; major, minor.....
