

Geological boundary

accurate.....	
inferred and concealed.....	
interpreted from aeromagnetic data.....	

Fault

accurate.....	
concealed.....	
interpreted from aeromagnetic data.....	

Shear

accurate.....	
interpreted.....	

Fold

fold axis (cross-section only).....	
minor fold, showing plunge of fold axis.....	
drag fold with vertical plunge.....	

Bedding, showing dip and strike

inclined.....	
inclined, showing plunge of stretching lineation.....	
vertical.....	
Igneous layering, inclined.....	

Dominant metamorphic foliation

inclined, with plunge of mineral or stretching lineation.....	
vertical, with plunge of mineral or stretching lineation.....	

Mineral lineation

horizontal.....	
plunging.....	

Way-up indicator

igneous layering.....	
pillow structure.....	
sedimentary structure.....	

Aerial photo trends.....	
Aeromagnetic trends.....	

Mineral field boundary.....	
-----------------------------	--

Mineral field district boundary.....	
--------------------------------------	--

Highway.....	
--------------	--

Formed road.....	
------------------	--

Track.....	
------------	--

Railway with siding.....	
--------------------------	--

Old woodland formation.....	
-----------------------------	--

Fence, generally with track.....	
----------------------------------	--

Townsite, population less than 1000.....	
--	--

Homestead.....	
----------------	--

Locality.....
