

Geological boundary

accurate.....	
interpreted, based on aeromagnetic data.....	

Fault

accurate.....	
inferred.....	

Shear zone

major, interpreted, based on aeromagnetic data.....	
minor.....	

Fold, showing plunge

major syncline, inferred.....	
minor fold, showing vergence.....	

Bedding, showing strike and dip

inclined.....	
vertical.....	
overturned.....	

Way-up indicators

igneous layering.....	
pillow structure.....	
scour structure, cross bedding.....	
graded bedding.....	

Dominant metamorphic foliation, showing strike and dip

inclined.....	
vertical.....	

Cleavage, showing strike and dip

vertical.....	
---------------	--

Mineral lineation, showing direction of plunge

inclined.....	
---------------	--

Aeromagnetic trend.....

Air photo lineament

foliation trend in greenstone.....
