

Geological boundary

exposed..... 

concealed..... 

Fault

exposed, partly based on aeromagnetic data..... 

concealed..... 

concealed, position uncertain..... 

Fold, showing trend and plunge direction

anticline, concealed..... 

syncline, concealed..... 

minor fold..... 

Bedding, showing strike and dip

inclined..... 

horizontal..... 

strike and dip estimated from aerial photography

0 – 15°..... 

trend..... 

Direction of movement of sediment-bearing currents

sense known x—cross-stratification..... 

sense not known f—flute, s—scour..... 

Fracture or joint, showing strike and dip

vertical..... 

Stromatolite locality..... 

Airphoto lineament, unspecified..... 

Aeromagnetic lineament.....
