

Geological boundary	
exposed.....	
Fault	
exposed, with horizontal relative displacement.....	
concealed.....	
Fold, showing direction of plunge	
anticline; exposed, concealed.....	
syncline; exposed, concealed.....	
overturned anticline.....	
overturned syncline.....	
Minor folds, showing direction of plunge	
minor anticline.....	
minor syncline.....	
minor fold, showing nature of vergence (Z, M, or S profile).....	
Bedding, showing strike and dip	
inclined.....	
Direction and sense of movement of sediment-bearing currents	
asymmetrical ripple marks.....	
cross-bedding.....	
Metamorphic foliation, showing strike and dip	
inclined.....	
vertical.....	
Mineral lineation, showing direction of plunge	
on foliation plane.....	
Cleavage, showing strike and dip	
inclined.....	
Fracture or joint, showing strike and dip	
vertical.....	
Fracture or jointing trend.....	
Veins, showing dip	
inclined.....	
Airphoto lineament	
prominent trend, unspecified.....	
foliation or bedding trend.....
