

Geological boundary	
exposed.....	
Fault	
exposed.....	
concealed.....	
concealed, interpreted from aeromagnetic data.....	
reverse, triangle on upthrown side.....	
Strongly foliated rock.....	
Fold, showing axial trace and generalized plunge direction	
anticline, exposed.....	
syncline, exposed.....	
overturned syncline, exposed.....	
Small-scale fold axis, showing trend and plunge	
minor anticline.....	
S-vergence.....	
Z-vergence.....	
M-vergence.....	
Bedding, showing strike and dip	
inclined.....	
vertical.....	
horizontal.....	
strike and dip direction from aerial photography, dip low to moderate.....	
Palaeocurrent, showing trend and sense of direction	
from cross-bedding.....	
Way-up indicator	
pillow-structure.....	
cross-bedding.....	
stromatolite growth.....	
Metamorphic foliation, showing strike and dip	
inclined.....	
vertical.....	
Cleavage, showing strike and dip	
inclined.....	
vertical.....	
strike coincident with bedding.....	
Mineral lineation, showing trend and plunge.....	
Trace fossil locality.....	
Oncolite locality.....	
Plant fossil locality.....	
Stromatolite fossil locality.....	
Isotopic age determination site with identification number.....
