

Geological boundary	
exposed.....	
Fault	
exposed.....	
concealed, interpreted from aeromagnetic data.....	
Fold, showing axial trace and generalized plunge direction	
syncline, concealed.....	
anticline, concealed.....	
Small-scale fold axial surface, showing strike and dip	
vertical.....	
Small-scale fold axis, showing trend and plunge direction	
anticline.....	
syncline.....	
Bedding, showing strike and dip	
inclined.....	
vertical.....	
Foliation, showing strike and dip	
inclined.....	
vertical.....	
Gneissic banding, showing strike and dip	
inclined.....	
	
Mineral lineation, showing trend and plunge.....	
Bedding-cleavage intersection lineation, showing trend and plunge.....	
Aeromagnetic lineament.....	
Isotopic age determination site with identification number.....	 168903
