CAINOZOIC

QUATERNARY

Ql	<i>Clay, silt, sand, gypsum, halite: lacustrine</i>
Qg	<i>Gypsum and quartz sand; marginal to salt lakes: aeolian</i>
Qs	<i>Red quartz sand; dunes and sand plains: aeolian</i>
Czc	<i>Quartz sand, rock fragments, clay, silt: colluvium, minor alluvium</i>
Czk	<i>Nodular and cavernous limestone, sandy limestone and dolomite; minor chalcedony and clay: calcrete</i>
Czs	<i>Red quartz sand, ferruginous pisoliths, minor clay: residual lateritic soil, in part deflated</i>
Czl	<i>Pisolitic nodular ferruginous laterite</i>

PALAEZOIC

EARLY PERMIAN Paterson Formation

Pa	<i>Coarse, poorly sorted sandstone, conglomerate, minor siltstone: dominantly fluvialite</i>
Prw	<i>White-weathering, fine to medium, well-sorted quartz sandstone</i>
Pzl	<i>Thick-bedded, cross-stratified red feldspathic sandstone with thin beds of micaceous siltstone</i>

Wanna Beds

Lennis Sandstone

EARLY CAMBRIAN Table Hill Volcanics

Elt	<i>Grey finely-crystalline tholeiitic basalt</i>
-----	--

Punkerri Beds

Ewk	<i>Thick-bedded and cross-bedded, fine, well-sorted feldspathic sandstone, thin siltstone beds</i>
-----	--

Townsend Quartzite

Ews	<i>Medium to thick-bedded silicified sandstone with pebble conglomerate beds</i>
-----	--

PROTEROZOIC
