

Geological boundary

exposed..... 

concealed..... 

Fault, showing dip of fault plane

exposed..... 

concealed..... 

concealed, interpreted from aeromagnetic data..... 

Fold, showing trend and plunge direction

anticline; exposed..... 

syncline; exposed, concealed..... 

Bedding, showing strike and dip

inclined..... 

horizontal..... 

strike and dip interpreted from aerial photographs

0–15°..... 

trend..... 

Metamorphic foliation, showing strike and dip

inclined..... 

showing mineral lineation..... 

Fracture or joint, showing strike and dip

inclined..... 

vertical..... 

Airphoto lineament..... 

Aeromagnetic lineament..... 

Isotopic age determination site with GSWA

identification number.....  142816
