Geological boundary	
exposed	
inferred or concealed	
Fault	
exposed, showing dip of fault plane	70
concealed	
concealed, interpreted from aeromagnetic data	
strike-slip, showing relative displacement	
Small-scale fold axis, showing trend and plunge	
synform; exposed	
anticline	→ 30
Z-vergence	-N→ 40
Bedding, showing strike and dip	
inclined	20
trend	
Igneous layering	
inclined	
Cleavage, showing strike and dip	
inclined	75
vertical	\vdash
Metamorphic foliation, showing strike and dip	
inclined	60
Fracture or joint, showing strike and dip	
inclined	80
Stromatolite locality	M
Airphoto lineament	
Aeromagnetic lineament
